

Steps to Execute a Business Process(Unlock All Tasks) Using a Scheduler

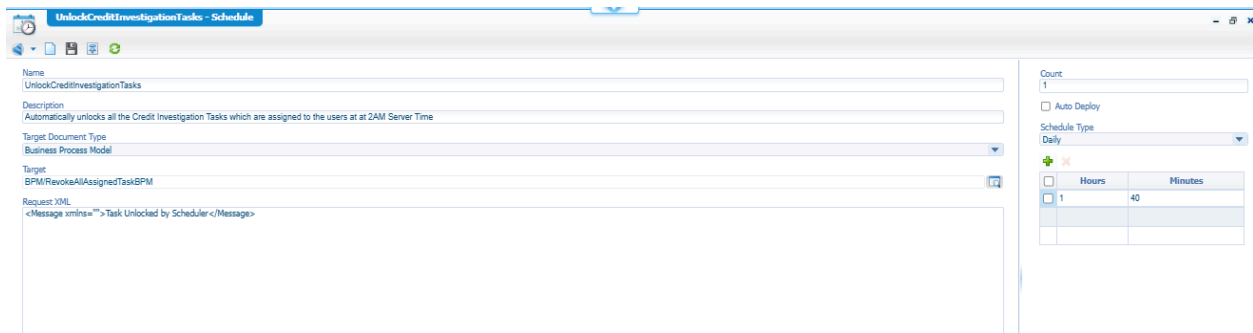

Step 1: Click on the schedule Manager in the Organization (Please refer to the attached screenshot).

Step 2: Selected the **UnlockCreditInvestigationTasks** scheduler to display its details.

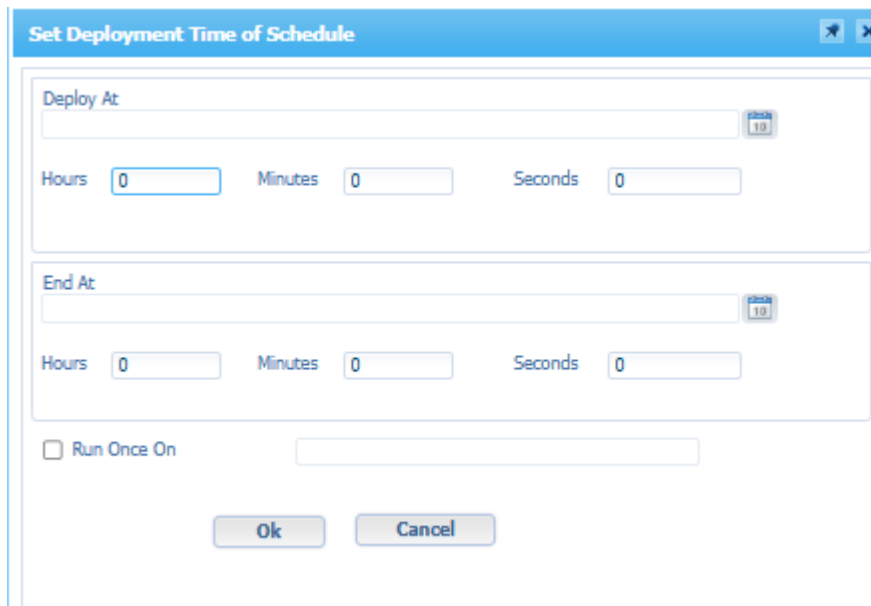

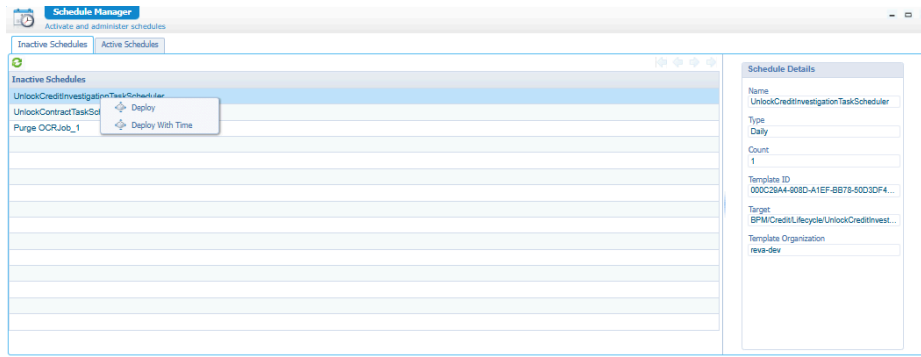

Step 3: Since the scheduler works on their scheduled time (in your case the BPM Automatically unlocks all the Credit Investigation Tasks which are assigned to the users at 2AM Server Time).

To run the scheduler, right-click you have two options:

1. Deploy - Immediately become Active and visible in the Active scheduler.
2. Deploy with time - You can update the time(start time) of execution of the scheduler, but the recurrence(hourly, Daily, weekly, fortnightly, etc) remains the same, and then as the updated time, it comes under the active scheduler(You can run it once)
3. Please refer to the attached screenshot.

Step 4: Under Active schedule one can execute the scheduler at the same time by clicking **Execute Now**
